VICTORIA, B. C. WEDNESDAY, AUGUST 6, 1902.

FORTY-FOURTH YEAR

**IT IS NOT
THE MATERIAL
That Goes Into Your
Repaired Watch
or CLOCK
That results in a Good Job
IT'S THE KNOW HOW**

Any bungler can buy the fine kinds of material that we use, but skill is the most valuable material required in watch and clock repairing.

We employ skilled watchmakers who know how to make even the cheaper makes of watches keep good time, and yet no timepiece is too difficult for them.

Our charges, too, are very moderate. We do not ask you to bring in your clock, notify us and we will attend to it.

Building Association,**

19 Broad Street,

Wish to correct the impression which is being circulated, viz: that they are making 10 per cent on the contracts which they negotiate. Let any schoolboy figure it out. You pay \$5.50 per \$1,000 per month, \$5 of which is credited to your account, the 50c. going to the expense and reserve funds. \$5.00 per month takes 200 months to pay \$1,000; 50c. per month for 200 months is \$100.00. This is \$100 on \$1,000 in 16 years and 8 months, which is only 3.5 of 1 per cent.

Boats Have All They Can Handle on the Fraser River.

Topliner on Monday Night Took Nearly Nine Hundred Fish.

Capilano Water Supply—Van-couver Has Glacier Attraction For Tourists.

From Our Own Correspondent.

Vancouver, B. C., Aug. 5.—There is a report current that the Chinese employed in the canneries are in many cases slipping over the line tempted to defy the United States laws offering the reported big bonuses offered by Puget Sound canneries for them, and no questions are asked. Many of these Chinamen have left without returning wages advanced to them.

The salmon run last night was very large; many boats caught over 500. The top liner is said to have been 870 fish. The average for the river was 200 to the boat.

J. D. Shields met with a serious accident while freighting over the Lytton-Lillooet road last week. He slipped off the wagon near the famous big slide and broke his leg in two places. The team continued down the steep dangerous hill. To prevent another accident, Mr. Shields tried to drag himself by a short cut in front of the horses, falling in this he shouldered an axle and hurt his arm and the horses were stopped, the Indian taking Mr. Shields home.

The Hon. D. H. McFadden and J. A. Davidson, Provincial Secretary and Treasurer of Manitoba, are visiting Vancouver. As they are prominent Orangemen, they will be banqueted by the Orange society in this city.

There is another claimant for Capilano water, the source of Vancouver's domestic water supply. North Vancouver has now applied for 1,000 inches. There are now two private parties who have filed applications besides Vancouver and North Vancouver. Vancouver claims that it is necessary that the city should have all the supply available for her water supply.

The Tourist association are talking of making a trail to glacier within easy reach of Vancouver on Crown Mountain opposite the city. Mr. John Pugh, the hunter's guide and furrier, said to the Colonist correspondent, that he believed this unnecessary when there was a fine glacier so easily reached up the Squamish river. Steamers run past the river is about 40 miles, and tourists reach the point of landing 15 miles up the river to the point of landing. The climb to the Squamish glacier is not more than 700 yards. The glacier itself is five miles long and 600 feet deep.

A very rich piece of free gold quartz has been picked up at Princess Royal Island. It is white quartz studded with small gold nuggets. An attempt is to be made to trace the gold to its source. (Miss Templeton, sister of the late Wm. Templeton, formerly Mayor of Vancouver, is visiting friends in British Columbia. Miss Templeton is connected with the Deaf and Dumb Institute of Belleville, Ont. To the Colonist correspondent she stated that the time was ripe for a deaf and dumb institution in British Columbia, and she wished for humanity's sake that able men would organize and discuss the public press. Some philanthropic organization might then take it up and write to all school teachers, ministers, etc., to hand in a list of all the deaf and dumb children that they knew of, with details as to their health, financial condition of their parents, etc. This would be a start. Miss Templeton stated that from enquiries she was able to make, she believed that there are at least 50 deaf and dumb children in the province that are growing up without any education whatever. In making further enquiries regarding this matter, the Colonist correspondent learned that more than half of the support of the Winnipeg deaf and dumb institute came from the fees of deaf and dumb children from British Columbia and the Northwest. At present, British Columbia contributes 25 per cent. of the necessary fund to run this large institution through the parents of deaf and dumb children of this province. Miss Templeton stated that if the Women's Council or other similar body were to meet her and discuss the question with her, she would be pleased to do so before going East this month.

SOUTH WELLINGTON FIRE.
Alexandria Hotel Destroyed—Constable Hodgson Hurt.

Nanaimo, B. C., Aug. 5.—(Special).—The Alexandria hotel at South Wellington was completely destroyed by fire early this morning. T. Beveridge, the proprietor, was applying for a transfer of his license to Ladysmith, intending to move the hotel there shortly. The insurance is \$3,500. Constable Hodgson was hurt in attempting to save the hotel, and is recovering at the Kaiser & Hamburger's store across the street.

ENGLISHMAN'S SUICIDE.
James Allan Takes Poison at Rockaway Beach.

New York, Aug. 5.—The body of a man identified as that of James Allan, an expert accountant, of Manchester, England, was found today on the beach at Rockaway. There was a strong odor of carbolic acid about the body, which led to the belief that the man had committed suicide by that means. He had been in this country but a short time.

A WAR CLAIM.
United States Sued for Use of a Private Vessel.

Washington, Aug. 5.—The question of the right of the government to seize and use private vessels in the harbor of a dependency of an enemy for war purposes during war time is involved in a case in which an appeal was docketed in the United States Supreme court today. The case is that of S. M. Ribas, Lugo & Co., with offices in Vigil, Spain, and Ponce, Porto Rico, against the United States, for payment of \$10,000 for the alleged use by the United States of the company's vessel, The "Luz," since wrecked in the Porto Rican hurricane. The appellants claim that the vessel was leased by the quartermaster's department as a collier from July 28, 1898, to August 12, 1899, and that the war department has refused to pay any money for the use of the vessel. The case is appealed from the district court at Porto Rico, which upheld the seizure as a use of an enemy's property by a war power for war purposes, recognized by international law. The United States claimed its relinquishment of the vessel was purely an act of grace.

SELF DEFENCE.
Workman Acquitted For Killing an Assailant.

New York, Aug. 5.—Martin McLane, superintendent of the Bartlett Haywood company of Baltimore, who shot and killed Patrick Angeline, an iron worker today by a corner's jury on the ground of self-defence. The company is constructing a gas tank for the Consolidated Gas company. It had trouble with its workmen, who struck and were replaced with non-union workmen. Saturday a mob of strikers set upon and beat McLane, who drew his revolver and fired, killing Angeline.

FAST SWIMMER.
Joe Nuttall Lowers World's Record at Leicester.

London, Aug. 5.—Joe Nuttall lowered the world's quarter of a mile open water swimming record at Leicester today, going the distance in five minutes and 50 seconds. Nuttall held a record of five minutes and 32 seconds for this distance in open water.

GENERAL FIRMIN.
Starts Government of His Own in Hayti.

Port au Prince, Hayti, Aug. 5.—The Firminist party has formed a provisional government at Gonaïves, with Mr. Firmin as president, and a cabinet. It is believed that this government will ask foreign nations to recognize it as a belligerent. Troops are being prepared to aid General Nord in his proposed attack on the Firminists at Gonaïves.

A GOOD SPORTSMAN.
Mr. Keene Does Not Make Excuses For Defeat.

New York, Aug. 5.—Foxhall P. Keene, who was captain of the United States polo team in the recent international match at Hurlingham, England, returned today on the Kaiser Wilhelm Der Grosse. He said the Americans were beaten because they were inferior players. The secret of the English success, he said, was their combination of play.

**The King
Returning**

His Majesty Will Reach London Today by a Special Train.

Unfavorable Rumors About His Condition Most Emphatically Denied.

Arrangements to Perfect Details of the Ceremony of Coronation.

London, Aug. 5.—The emphatic denials of the sinister rumors of King Edward's condition are confirmed by the persons who have recently visited His Majesty. The King will land at Portsmouth and take the train for London at half-past three o'clock tomorrow morning, and his train is due to arrive in London at half past five. His drive to Buckingham Palace will be by an extended road instead of the direct way, in order that the public may have an opportunity to see and congratulate the sovereign.

The King has commanded that coronation day and the anniversary of his coronation be observed as "collar day," (a day of ceremony at the English court, when the courtiers wear the collars of their orders).

On account of the approaching coronation, most of the volunteers are at present undergoing their annual training at Salisbury. It has been decided that they are to be there for their camps August 8, instead of August 9.

The rehearsal of the coronation ceremonies in Westminster Abbey this afternoon was the most largely attended and elaborate of the rehearsals yet held. The King and Queen and other very important personages who were not present, were represented at the proceedings by substitutes. Col. Brocklehurst, secretary to His Majesty, impersonated King Edward, and Lady Suffolk, one of the ladies of the bed chamber, took the part of the Queen. Even the servants were drilled in their duties connected with the coronation arrangements, and the pages carried out theoretically their functions of coronet carrying and train bearing.

Although the religious and musical features of the ceremonies were omitted this afternoon, the instructions and repetitions by those who are not perfect in their parts caused the rehearsal to occupy about the full time planned for Saturday's ceremonies.

ALBANIAN BRIGANDS.

Turkish Troops Attack and Disperse a Band.

Constantinople, Aug. 5.—Turkish troops have attacked a large band of Albanian brigands in the neighborhood of Oskani, European Turkey. The chief and 23 of the brigands were killed and others captured by the troops.

ST. CATHERINE'S STORM.

A Great Deal of Damage Done to Fruit District.

St. Catharines, Aug. 5.—Word reached here today that a tornado which struck St. Catharines on Sunday afternoon also hit the village of Port Hope, doing damage estimated at \$25,000. The chief and 23 of the brigands were killed and others captured by the troops. The tornado was accompanied by a hail-storm, which cut fruit, vines, and trees, destroyed nursery stock and broke several thousand panes of glass in hot houses.

HAS APPENDICITIS.

Marquis De Rudini Attacked While Crossing Atlantic.

New York, Aug. 5.—While crossing this side of the Atlantic on the Kaiser Wilhelm Der Grosse, which arrived today, the Marquis De Rudini, son of the former premier of Italy, was taken ill of appendicitis. He was attacked when the steamer was one day out. The ship's physician called Dr. W. T. Bull and Dr. Roswell Park, passengers, in consultation, and the case was diagnosed as appendicitis. When nearing this port a wireless message was sent from the vessel, asking an ambulance was at the dock to convey the patient to a private hospital. The physicians say he is not in a serious condition, and an operation may be avoided. The Marquis is a special commissioner of the St. Louis exposition, and is here in connection with his duties.

VENEZUELA REBELLION.

Castro Making Preparations in Case of Defeat.

Willemsstad, Island of Curacao, Aug. 5.—Four million cartridges and 10,000 Mauser rifles were received by President Castro last Saturday. Half of these arms and ammunition were deposited in Caracas, and the other half was sent to Maracaibo on a schooner. This distribution of munitions of war is taken to be proof that if Castro's forces are beaten in the expected engagement with the rebels, and if the President escapes he expects to prolong resistance and purposes to transport the seat of government to San Cristobal in the extreme Western part of Venezuela, where he was born. This apparent decision on the part of the President has created a feeling of depression in the commercial and financial circles. A British cruiser anchored in the Lagaira roadstead today.

ENGLISHMEN WIN.

Dougherty Takes Championship Doubly at Longwood.

Longwood, Mass., Aug. 2.—The two English tennis players, R. F. and H. L. Dougherty, proved too strong today for one of the best of the American players, R. D. and F. L. Wrenn, and won the Eastern championship for doubles in three sets to one. For two sets the Wrenns, by keeping the ball high in the air, seemed to prolong a trifle the duration of the play, but the Englishmen, resorting to the same tactics, beat them out. The score was 4-6, 7-5, 6-2, 6-2.

What the match was in progress W. A. Larned, the present tennis champion, and one of the American team who will play the English next week for the Davis trophy, was being beaten by one of the coming young players, William J. Clothier, of Philadelphia. The summary: Longwood cup, for singles—W. J. Clothier beat W. A. Larned, 6-3, 3-6, 6-2, 7-5.

Eastern doubles championship, final round—R. F. and H. L. Dougherty beat R. D. and F. L. Wrenn, Jr., 4-6, 7-5, 6-2, 6-2.

KIDNEY TROUBLES.

Mrs. Louise M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago, I had suffered so long with kidney troubles and other complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well.

MRS. LOUISE M. GIBSON.
"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write you this, and gladly thank you; six bottles was all I took, together with your Pills. My headache and backache and kidney trouble went, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty."—Mrs. Louise Gibson, 4513 Langley Ave., Chicago, Ill.—\$5000 forfeit if above testimonial not genuine.

If you feel that there is anything at all unusual or puzzling about your case, or if you wish confidential advice of the most experienced, write to Mrs. Pinkham, Lynn, Mass., and you will be advised free of charge. Lydia E. Pinkham's Vegetable Compound has cured and is curing thousands of cases of female trouble.

DR. CHRISTIE DEAD.

One of the Oldest Quebec Liberals Gone.

Montreal, Aug. 5.—Dr. Christie, Liberal, P. for Argenteuil county, is dead, aged 78 years. He was first elected to parliament in 1875, defeated in 1878, re-elected in 1881, and in 1890. He was re-elected as one of the most ardent supporters of temperance reform in the House of Commons. Dr. Christie died at his home, Lachute, Que. He had been ailing for the past four months. Pneumonia was the immediate cause of death.

COLONIAL CONFERENCE.

Subjects Discussed Yesterday With Mr. Chamberlain.

London, Aug. 5.—The conference of colonial premiers with Colonial Secretary Chamberlain discussed army and navy supply contracts, the reduction of Imperial postal rates, and the exchange of Canadian live cattle from Great Britain, at its meeting today. No definite conclusion was reached on the last mentioned question, which it is understood will be taken up with Mr. A. Hanbury, the president of the board of agriculture.

Replying to an inquiry in the House of Lords today, the Earl of Onslow, under-secretary of the Colonial office, said the government had no official communication on the subject, but had reason to believe that the Canadian government and the Canadian Pacific railway. The British government did not know whether the negotiations were likely to lead to a satisfactory conclusion, but it regarded favorably any project for the establishment of a fast steamship service between the United Kingdom and any of the Empire's dominions. Concerning the rivalry of ports in the United Kingdom ambitious to be made terminal ports for such service, the Earl of Onslow said the government was glad to form a ring to see the matter fought out fairly.

CANADIAN STEEL AND IRON.

Report of Combination to Fight United States Steel Trust.

Montreal, Aug. 5.—The Herald tonight publishes a story that negotiations are on foot looking to the combination of the Dominion Iron & Steel company, the Nova Scotia Steel and Wire company, the Western Canadian steel works, whose works are established in all the principal English mining areas, but whose name is not given. Senator Cox, of Toronto, who has just returned from England, is said to be the prime mover in the affair. The only difficulty in the way of the amalgamation, it is stated, is that of fixing the value of the Dominion Iron & Steel company, which is stated, would enter into active competition with the United States Steel company.

DROWNED AT NELSON.

Little Boy Loses Life at Lake—Col. Prior Arrives.

Nelson, B. C., Aug. 5.—(Special)—This morning at 11:40 the body of Peter McLeod, the 7-year-old son of Murdoch McLeod, was found floating in the water, some distance from his home. The boy had been sent to get water, and is supposed to have walked out on a log and fallen in deep water, and either come up under the log or else struck his head and been stunned, as a dozen people were within a hundred yards of where the accident occurred and knew nothing of it till the body was noticed. The body was taken to Nelson two months ago from North Dakota, and the father was employed as watchman at the Nelson Saw & Planing mills.

Col. E. C. Prior, minister of mines, arrived in the city this afternoon from Crow's Nest, and stated that the lumber business through East Kootenay was booming, and that news of the trouble at Fernie and Michel was settled, there was every prospect of rapid improvement in conditions both in East and West Kootenay. He will leave for Rossland about the end of the week and go thence to the Boundary country.

SCORES OF USES.

While Dr. Chase's Ointment is best known on account of its wonderful control over eczema, salt rheum and piles, it is found to be almost a cure for many other ailments, such as hemorrhoids, chafing, sunburn, burns, scalds, and each every form of itching, irritated or inflamed skin. It is invaluable in any case, as a soothing and healing application knows no equal.

MARTELL'S
THREE STAR
BRANDY

OF ALL WINE AND SPIRIT MERCHANTS.

Two Steamers From the North

Spokane and Cottage City Arrived About Midnight With Many Passengers.

Mr. Prefontaine, of Montreal, Talks Regarding the Needs of Klondike.

Steamer Spokane, the excursion steamer of the Pacific Coast S. S. company, and the Steamer Cottage City, reached port about midnight within a few minutes of each other. The Cottage City, which arrived at the wharf not more than 10 minutes ahead of the excursion steamer, had a story to tell of a great race she had, steaming away from the Spokane for over 24 hours, since she sighted the excursion boat in Queen Charlotte Sound. The Spokane was not far behind her when the wharf was reached, however. The steamers brought news that two United States marshals had taken five Chinese to the United States, and that the Spokane was ex-Mayor Prefontaine of Montreal, who is en route home from Dawson via Seattle and Portland.

Mr. Prefontaine was much impressed with the visit of Mr. Dawson and the work done in the Klondike by Governor Ross, who, he said, was improving, when he passed through White Horse. He did not see the Governor, as the patient, who is now able to say a few words, endeavors to speak when visitors come and failure annoys him and causes him to relapse. He has no doubt overworked himself.

Mr. Prefontaine says the visit of Mr. Anderson, the trade commissioner sent by the Dominion government was badly needed at Dawson, for the Dominion government has neglected the trade of the Klondike. The trade conditions there are now assuming their proper level, for the boom days are over. The government has never looked into the trade conditions, and things have been carried on in a haphazard way, with the result that the market has often been glutted with some goods and without others.

There are two questions which are to be solved by the government in connection with the Klondike, and the water problem is one of them. Water must be provided for the creeks so that the miners may treat dirt which now is not considered paying, because it is so rich as that which has been worked in the past. With good water supply much ground that will not pay to touch at present will be worked to advantage.

Another question to be solved by the government for the Klondike country is railway and other communication. A winter communication by railway is one of the needs of the district. More wagon roads are also required. The value of the wagon roads to the community is best illustrated by the fact that where it formerly cost 20 cents a pound to haul goods from Dawson to the forks, but 25 miles away, the goods of the miners can now be carried there for 15 cents per pound. Road building has been one of the greatest boons to the Klondike, and the road that is now being arranged for will cut off 60 miles, will be a great boon to those who have business in the far North. A through railway from the Coast to Dawson is needed though.

Mrs. Warren Springer, whose husband gave over a million dollars to Western missions and colleges, was an ardent passenger on the steamer Spokane, she having been North visiting the Alaskan missions. Both the Cottage City and Spokane sailed for Seattle about 2 a. m.

NITRATE SHIP IN.

Schooner Spokane Reaches Port From Iquique.

Schooner Spokane, which was reported inbound yesterday morning, reached port yesterday evening and tied up at the Outer wharf. The Spokane, an American schooner commanded by Capt. Jamieson, was carrying a cargo of nitrate for the Victoria Chemical works. She had an uneventful passage, having experienced light winds during her voyage. No vessels were sighted. The Spokane left day after day after the Chilean vessel, which arrived yesterday morning. The Ena Luisa, which arrived at Port Townsend a few days ago, sailed four days in advance of her. The Ena Luisa is expected to arrive at the Outer wharf this morning.

The steamer Miowera, of the Canadian Australian line, is due from Sydney via Honolulu, Suva and Brisbane. Among the passengers will arrive on her is Lord Hopetoun, the retiring governor of Australia, and party.

THIEF SENTENCED.

Quebec Barge Gets Five Years in Penitentiary.

Quebec, Aug. 5.—Second, alias Marin, a thief, has pleaded guilty to several charges of burglary in the lower parishes, and was sentenced today to five years in the penitentiary.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not a lie, but truth. Take a dose. See advertisement. Small pill. Small dose. Small price.

LINE TO SOUTH AFRICA.

Canadian Manufacturers Want Durban and Port Elizabeth Ports of Call.

Toronto, Aug. 5.—(Special)—The Canadian Manufacturers' association, Sir William Mulock asking him to try and arrange to make Durban and Port Elizabeth ports of call for the new line to South Africa, in addition to Cape Town.

Scientific Farming

Dr. Saunders, Director of Central Experimental Farm Visiting Victoria.

To Arrange For Government Farm Exhibits at the Fair.

Reports Crops in Fine Condition From All Through the West.

William Saunders, L. L. D., F. R. S. C., F. L. S., director of the Central Experimental Farm, arrived in Victoria on Monday last night, and is staying at the Grand Hotel. Dr. Saunders is on his annual tour of inspection of the Dominion government experimental farms and reports everything progressing favorably at the different points of his journey. He visited the farms at Brandon, Manitoba, Indian Head, Assiniboia and Agassiz, British Columbia, and found in each case the good work had been accomplished during the year, and that the crops were, in general, in a flourishing condition. All through Manitoba and the Territories he found the wheat leading out and of good color, giving promise of a bountiful harvest if favorable weather should prevail for a few more weeks. He found a spirit of confidence and buoyancy pervading the farmers and businessmen of the prairie country, all looking forward to a record crop, while the immense inflow of immigration gives promise of a very large and profitable year for the prairie land, and a proportionate increase in grain production next year. The great central plains—mismanned Northwest—were never looking better for more difficult times, with a world's bread producer being now established beyond a peradventure.

At Agassiz Dr. Saunders was much pleased with the progress made on the experimental farm. A considerable area of land has been cleared during the year, so that there is now available for cultivation about 200 acres. The grain crops are looking well, and hay especially is a heavy crop. The fruiting of the alfalfa is well up to the average, though in some instances particular species will fall below. This is to be expected where so many varieties are being cultivated experimentally, with the object of eventually adopting and advising the cultivation of the most successful and best suited to the country. The plums are a heavy crop, and if they are not attacked by insects, will give a large return. Incidentally, Dr. Saunders mentioned that plum rot is a modern disease in this province, as a few years ago it was practically unknown. One of the greatest difficulties with which the director of the Agassiz farm has to contend is the scarcity and uncertainty of labor. Men are hard to get, and in a majority of cases they are transients, considering pay, because of the change of employment, in the mines or lumber woods, or on the river, to the steady work of farming.

Dr. Saunders took a trip to Steveston to visit the fisheries, and secured photographs of fishing and cannery processes for use in illustrating the industry in future blue books. He was much impressed with the magnitude of the salmon canning industry, and reports that the fisherman are doing better than ever on the occasion of his visit. The appearance of the crops in the Delta was very gratifying. Grain and roots appeared to be plentiful, and in fine condition, while the hay crop is above the average. Oats are also a very promising crop this season.

The principal object of Dr. Saunders' visit to Victoria is to confer with Mr. Beaumont Boggs, manager of the Industrial exhibit with regard to the exhibits from the government experimental farms. The government intends sending a choice selection of exhibits, which will not be entered in competition, but he shown as an object lesson of what may be accomplished by scientific cultivation. Mr. Boggs and the exhibition directors will be asked to provide space for these valuable and interesting exhibits.

Asked as to the results of the experiments in fruit growing at the Indian Head farm, Dr. Saunders said they were fairly successful. Several years ago they had taken a small, hardy crabapple and by careful cultivation had succeeded in producing a fairly good-sized apple, fit for cooking and jelly making. The ultimate object is to produce a tree hardy enough to grow under all conditions of the prairie climate, and there is no doubt of the ultimate success of these experiments, but, in the meantime, the Director remarked with a smile, British Columbia fruit-growers need have no fear of losing the market for their fruit, and it is well worth the while of British Columbia to cater to its ever growing needs.

Dr. Saunders will spend a few days here and on the Coast, and will then proceed to Winnipeg, where he is due on August 29, to attend the annual Prairie Horticultural convention.

Like other evils cramps and diarrhoea come suddenly. Promptly give a dose of Perry Davis' Painkiller and the pains will go immediately. A bottle at hand will save hours of suffering—be prepared.

COWS REGATTA.

Bryn Hilde Wins the King's Cup.

Cowes, Aug. 5.—Bryn Hilde won first place for the King's Cup. Meteor finished second and Glory third. Bryn Hilde finished at 5:54, Meteor at 6:13 and Glory at 6:16:58.

NARCOTIC POISONING.

Toronto Woman in Critical Condition at Hospital.

Toronto, Aug. 5.—Mrs. Florence Atwood, who is in hospital suffering from narcotic poisoning, is in a critical condition.

In washing woollens and flannels, Lever's Dry Soap (a powder) will be found very satisfactory.

What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but are sometimes inherited.

How do they manifest themselves?

In many forms of cutaneous eruption, salt rheum or eczema, pimples and boils, and in weakness, languor, general debility. How are they expelled? By

Hood's Sarsaparilla

which also builds up the system that has suffered from them.

It is the best medicine for all humors.

DIED.

LAKIN—At the family residence, No. 153 Montreal street, on the 4th instant, Francis Lakin, a native of Newhall, Derbyshire, England, aged 77 years. The funeral will take place on Wednesday at 2:30 p. m., from the residence as above, and at St. James' church at 3 o'clock. Friends will please accept this intimation.

"Why it's Blue Ribbon"

Activity In Mining

Transactions Recorded In Victoria Mining Division During Month of July.

Vast Amount of Work Done on Prospects In the District.

The activity in mining, on Vancouver Island generally, and the Victoria mining division in particular, which began early in the year, shows no sign of diminution. On the contrary, as the months slip by the fact forces itself upon the observer that this quickening of interest in local mines is only beginning, and that the stimulus given it by the building of the Crofton and Ladysmith smelters is strengthening and increasing in strength day by day. The entries in the books of the Mining Recorder for Victoria mining division furnish the strongest proof of this steady growth of the mining industry and show that there is substantial work being done on the numerous prospects.

CLAIMS RECORDED.
The following mineral claims were recorded in the Mining Recorder's office for Victoria mining division during the month of July, 1902:

Albert, San Juan.
Alexandria, San Juan.
Blair Athol, San Juan.
Boss, Mount Brenton.
Black Bird, Shawanash Lake.
Copper Hill, Koksilah river.
Clyde, Salt Spring Island.
Dunbar, San Juan.
Franklin, Sooke.
Goulding Reef, Goldstream.
Hastings, San Juan.
Hoover Bay No. 2, Hoover Bay No. 3, Cowichan Lake.
Highland Chief, Chemainus river.
Jumbo, Highland district.
Lincoln, Salt Spring Island.
Queen Susanah, Mount Brenton.
Reidskin, San Juan.
Rye, San Juan.
Richmond, San Juan.
Red Bird, Mount Brenton.
Spokane, Mount Brenton.
Terra Cotta, San Juan.
Tacoma, Mount Brenton.
Wallace, Koksilah river.
Willow Grouse Fraction, Sooke.
X, Mount Brenton.

CERTIFICATES OF WORK.

Certificates of work were issued to the following during the month of July: Walter Rowbottom, Golden Slipper, Mount Brenton.
Walter Rowbottom, St. Alban, Mount Brenton.
Henry Fry, Pauper, Mount Brenton.
John Windsor, Bat Fraction, Mount Sicker.
E. W. Malander, Oregon, Mount Sicker.
W. O. Carter and L. Thompson, P. L. S. Pachana, San Juan.
Copper King, J. W. Munro, Mount Brenton.
Queen Susanah, J. W. Munro, Mount Brenton.
Yorkshire Lass, J. W. Munro, Mount Brenton.
St. George, J. W. Munro, Mount Brenton.
Lola Lenora, J. W. Munro, Mount Brenton.
Slasher, J. W. Munro, Mount Brenton.
Klondyke, J. W. Munro, Mount Brenton.
Golden Eagle, J. W. Munro, Mount Brenton.
E. W. Malander, Brooklyn, Mount Sicker.
C. F. Owen, Richard N., Chemainus river.
C. F. Owen, Chemainus river.
C. F. Owen, Thistle, Chemainus river.
C. F. Owen, Sea Gull, Chemainus river.
C. F. Owen, American Boy, Chemainus river.
C. F. Owen, Seattle, Chemainus river.
Anna Koenig, Blue Jay, Leech river.
S. Erb, Phoenix, Mount Brenton.
E. W. Molander, Klondyke King, Mount Sicker.
E. W. Molander, Diamond, Mount Sicker.
E. W. Molander, Sea Lion, Mount Sicker.
O. Arneson, Red Deer, Bella Coola.
O. Arneson, Bella Coola, Bella Coola.
O. Arneson, Sulphur, Bella Coola.
J. W. Edgson, Bobs, Sugar Loaf and Richards Mountains.

SALES AND TRANSFERS.

The following sales and transfers were recorded during the month of July: C. H. Dickie, the plant to 500 tons Malahat mountain, to Clermont Livingston.
E. W. Shaw, Duncan, to H. A. Hoover, Seattle, the Two Friends, Chemainus river.
Hugh Campbell, Mount Sicker, to E. Beech, Mount Sicker, Brass Dore Fraction.
Hugh Campbell, Mount Sicker, to Bessie Campbell, one-half interest in the Minnie, Mount Sicker.
R. G. Campbell, Mount Sicker, to Hugh Campbell, one-half interest in the Minnie, Mount Sicker.

CERTIFICATES OF IMPROVEMENTS.

The following certificates of improvements were issued during July:

The B. C. Pyrites company, limited, Red Bluff, on Red Gulch creek, Oxtail river.

Reuben Helen, Bluestone, Queen, Red Gulch.

MINERS' LICENSES.

During the month of July the Mining Recorder for Victoria mining division issued 42 free miners' certificates, considerably more than one per day.

MINING NOTES.

A proposition is being considered to connect Greenwood and Phoenix by electric tramway. The road would cost \$100,000 and Greenwood is proposing to issue 5 per cent. debentures for that amount.

About 885 tons of ore have been shipped to the Greenoak smelter from the Carmi at considerable expense, having been taken out part of the way over a rough snow road in sleighs and afterwards to the railway at Midway in wagons. This ore, which was, of course, selected in mining and to a certain extent hand sorted, yielded a little better than \$20 in gold and 4 ounces silver per ton.

It is reported that the Montreal and Boston Copper Co.'s smelter at Boundary Falls will have an additional furnace put in at once, thereby increasing the capacity of the plant to 500 tons daily. The new furnace will measure 40x170 inches in size, and will be of standard water jacket construction. The smelter is reported to have been running satisfactorily and making a little money.

The Granby smelter has been running three furnaces of late, the shipments from the mine averaging 1,000 tons of ore daily.

Richest In The Province

Prominent Mining Man's Opinion of Resources of Vancouver Island.

United States Capitalists Looking for Pulp Wood and Minerals.

Mr. Haywood, manager of the Tacoma Steel company, is at Lund overseeing the work being done on the iron prospects recently purchased there. The company of which Mr. Haywood is manager has at its head H. Hewitt. The company have invested extensively in British Columbia and will invest still more. To the Colonist correspondent, who met Mr. Haywood at Lund, that gentleman said that the Marble Bay mine, of Texada Island, purchased by them, had turned out a good mine and gold values were increasing with depth. Vancouver Island, however, held more values to the square mile than any other ground of its size in the province. On the Island were iron, coal, timber, copper and gold, and any amount of marble.

He had recommended Mr. Hewitt to look at the iron units on Quatsino Sound, and Mr. Hewitt had seen enough to make him want to investigate further. Cruisers were now on the limits, but it would be another month before they could get into the area as it was a big proposition. When they did report, he believed they would report favorably. If the report was favorable the limits would be purchased and a pulp mill erected at once.

He was at present developing iron properties on the Island, which also promised. Although very little work had been done on British Columbia's magnetite deposits, he was of the opinion that there was enough iron for every body who wanted to go into the iron business for the next few hundred years, and it had been demonstrated that as regards quality it made the best manufactured iron, as good as any ever produced in the world. This was proven by the sheet iron turned out by the Union Iron works from British Columbia ore.

He thought red hematite was exceedingly scarce. It had not yet been found in red iron deposits within easy reach of salt water that were worth investigating. Either silica or red iron would have to be mixed with magnetite to make a magnetic iron sufficiently malleable, but this red iron could not be handled if it was more than two miles from the coast, and contained less than 40 or 50 per cent. of iron. They had had a property presented to them away in the interior, running 60 per cent. iron, a magnificent proposition, but railway and other expenses of getting it out made the proposition impossible. His company, however, had located hematite in Puget Sound suitable for their purpose, and they were relieved from all anxiety on that score.

Mr. Haywood will spend some time in the province arranging for development work on Vancouver Island and investigating local propositions presented to his company.

THE CARIBOO HYDRAULIC

Big Mine Must Close Early on Account of No Water.

Ones first visit to the Consolidated Cariboo Hydraulic company's mine at Bullion, in the Cariboo district, is likely to impress him with the idea that he has seen a pretty big mine, says a correspondent of the Asiatic Journal. A second visit still further impresses him with that fact and that this mine, said to be the largest hydraulic mine in the world, has been closed for some time. What's the going to send down this season? Well, your correspondent, who has seen the mine last year and come away with-out knowing "what was coming down," and his visit this year netted just exactly the same answer—nothing. The Bullion mine will receive only the kind of treatment from the manager, Mr. J. B. Hobson, but if he is seeking information which properly belongs to the district, he will receive it. The mine is a mind reader and an X-ray machine or two to obtain it.

Last season, 1901, there was a light snow fall, followed by dry summer weather, consequently the watersupply gave out early and the piping season was very short. This season the situation is one of not much change. The snow fall, the snow fall has been light again, there have been no rains, and piping began one month earlier.

The winter of 1899 and 1900, we believe, was an average winter. The summer following there was sufficient water in Moorhead and Pollers lakes to run the system. That season with a surplus in the lakes. That season with a loss of nearly one month, during the very best part of it, the mine yielded \$550,000. Under ordinary conditions of water the lakes now tapped by the 32 miles of canals, will receive and hold a full season's supply of water, and of course it was to meet ordinary conditions that the system was arranged. But if these conditions will no longer prevail, then it seems as if the company must extend its system to tap other sources of water, and even enable them to tap full seasons under conditions which have prevailed the last two years.

Three important changes have taken place since our last visit a year ago. An electric system to run the drive and light the pit and camp has been installed, the bedrock has been blasted out for 900 feet and a bedrock flume laid, and the camp moved to a splendid position near the mouth of the pit, which, by the way, I may be allowed to express an opinion, is where it should have been built in the first place.

This is the first season that any attempt has been made to wash the bedrock gravels, but to do so it was necessary to blast out the bedrock to a sufficient depth, so that when it reaches the present face of the pit, and even far beyond it, it will not have risen too high. Close to the dump the flume is 70 feet below the surface of the bedrock, and about 20 feet at a point about 900 feet further up. Some idea of the amount of rock blasted out can be had when it is known that at the bottom of this cut the width is 12 feet in the clearest part.

The bedrock is different from any I have ever seen in other Cariboo mines. It is an extremely hard red diorite and in places red granite. Three Gardner electric motor drills were used to do all the drilling and Mr. Hobson is very much pleased with the way in which they have worked. One of these drills put in an 8-foot hole in 45 minutes.

The Interest In Tennis

Large Number of Spectators Present at Belcher Street Courts Yesterday.

Lacrosse Team Getting Together a Strong Team for Saturday.

From the following list it will be seen that some very close games were played yesterday in the open tournament of the Victoria Lawn Tennis tournament. The several events being keenly watched by a large number of spectators. The committee wish to impress on the players the necessity of being at the grounds at the time their match is scheduled. The order of play is published for the convenience of players only, and the committee reserve the right to alter the order of play if found necessary. The players are expected to be on the grounds during the week. From the list of fixtures for today, it will be noticed that some very good matches will be played in the afternoon. At 3 o'clock Messrs. Combe and Rogers meet Capt. Black, A. S. C., and Lieut. Whyte, R. E. at 4 o'clock the Vancouver players, Mr. Smith and Mrs. Byron-Johnson play in the mixed doubles and at 5 o'clock A. W. Gordon and Miss Bell play the winners of R. B. Powell and Miss V. Hickey, and E. C. Crickmay and Miss Morris, the latter being also Vancouver visitors. Next Friday afternoon the final men's singles will be played and possibly the final men's doubles and on Saturday (Coronet) Day the championship singles, both ladies and gentlemen's, and the final mixed doubles will be played. The committee have arranged to give a dance at the Dallas hotel on Friday evening. The ball is expected to be a great success and it is hoped that a large number will be present. Tickets will be for sale at the tennis courts, and may be obtained from any member of the committee on Thursday afternoon.

The following is the result of yesterday's play:

Miss Matland Dougal beat Miss Prior, 6-3, 6-3.

R. G. Howard beat W. T. Williams, 6-3, 6-3.

Miss A. Bell beat Mrs. Hurton, 6-2, 8-6.

Mrs. E. Crow Baker beat Miss V. Hickey, 6-0, 6-1.

J. D. Hunter beat R. Clay, 6-0, 7-5.

G. Howard beat D. M. Rogers, 6-2, 6-4.

Mrs. Hardy and Miss A. Bell beat Mrs. Laidley and Miss Matland-Dougal, 6-2, 6-4.

Lieut. G. V. Knox, R.N., and Mrs. Burton beat Lieut. R.N., and Miss M. G. Howard, 6-1, 4-6, 9-7.

T. B. Tye and Miss Matland-Dougal beat Lieut. Blandy and Mrs. Burton, 6-3, 6-4.

R. H. Pooley and Mrs. E. Crow Baker beat R. G. Howard and Miss Clapham, 2-6, 6-3.

T. B. Tye beat T. B. Tye, 3-6, 7-5, 6-0.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

F. T. Cornwall and H. A. Howard beat Lieut. G. V. Knox, R.N., and Lieut. Pound, 6-2, 6-2.

W. K. Keefe and Miss S. Pemberton beat Lieut. Blandy and Mrs. Langton, 6-3, 6-7, 6-2.

T. B. Tye and Miss G. Leewen beat C. W. Gamble and Miss Prior, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

F. T. Cornwall beat Harvey Combe, 6-3, 6-3.

C. W. Gamble and Miss Prior beat T. B. Tye and Miss G. Leewen, 6-3, 6-4.

Capt. Black and Mrs. Hardy beat D. M. Rogers and Miss V. Hickey, 6-4, 6-2.

Vancouver, after last Saturday's win over Westchester, are, perhaps, inclined to look upon their coming game as a "clinch," while Victoria must prove their contention that they are not sleep robbed them of their game on Dominion Day. Present Vancouver holds a slight advantage over Victoria in the race for the championship. The home team hopes by hard work to finish the balance of the schedule with a clean sheet and land the banner here.

GETTING IN SHAPE.
Victoria to Meet the Lavits on Friday Evening and Saturday Afternoon.

The Victorias and the Lavits baseball team of Seattle, will play two games at the Oak Bay grounds this week, on Friday evening, and Saturday afternoon. Schwengers will pitch one of the games and Harrison the other. Holness, whose team on Monday, will pitch the third game. The management is anxious to keep in shape for some of the harder games later in the season, and will play two games with Vancouver next week, and then start on the tour, playing at Vancouver, Everett and other points, returning here for the game on Labor Day with the Everetts.

BOXING TOURNEY.
Arrangements Advancing Favorably for Saturday's Bout.

The preparations for the big boxing night on Saturday at the V. A. C. rooms are going on in good shape. There are lively times in the gymnasium of an evening. The principals are, as they should be, most friendly, and are leaving nothing undone to put up a game struggle for supremacy. The programme is out and Livingstone takes the place of the main event. The fight will be with an unknown man, who will be a surprise to many. Irving is at present in the country where he is rapidly getting into condition. Clark, of the R. A., a champion, has been put into the middle weight class. The knowledge that each of these men has gained in many sporting matches makes it extremely difficult to say who will win on points. The referee, Capt. Phillips Wiley, and the judges, Lieut. Blandy of the army, and Lieut. Lay of the navy, together with Mr. Fisher are so capable that the result will be decided on their judgment. The club is fortunate in finding in the province so many willing to help forward its aim in the encouragement of the many art. Bob Foster is working hard outside the gymnasium, and in the rings keeping a close eye to having a ring that will satisfy the boxers and produce the best and liveliest results.

FINANCIAL AND COMMERCIAL

MINING EXCHANGE QUOTATIONS.

AUCTIONEER

Empress in Port From the Orient

White Liner Brings Many Notable Passengers—Heavy Silk Shipments.

First Salmon Carrier Reaches Port—Lumber and Nitre Carriers Arrive.

The R. M. S. Empress of Japan, Capt. Pybus, reached port yesterday at noon from the Orient, after a pleasant and uneventful passage. She brought 66 saloon, 23 intermediate and 319 Chinese and Japanese, the greater percentage Chinese, a large number of whom were bound to Demerara and the West Indies, to work on the sugar plantations. Included among the saloon passengers were the usual army and navy men, diplomats, missionaries, globe trotters and commercial men of the Far East. Commander Davidson, of H. M. S. Ocean, came from Hongkong, and Capt. Wintz, R. N., post captain of H. M. S. Goliath, was also from the Chinese port. Lieut. Boettcher, of the German army, came from Tien Tsin; G. H. Bryant, of the Royal Engineers, from Hongkong; Lieut. E. F. Holland and Lieut. W. H. Ross, from India, where both have been serving in the Punjab Infantry, and Lt.-Col. Mawson, also from India. Miss Atkinson returned from Japan, acting as chaperone to a trip from San Francisco to Yokohama, to Dr. Kim, a Japanese lady doctor. Karl Bremer, of the chartered bank at Eschwege, was bound home on furlough. Prof. W. C. Simpson, a plague expert, returned from a visit to Hongkong, where he has been experimenting with the plague bacilli. Mr. and Mrs. Simpson, who are on the steamer L. Camera, of Shanghai, came to British Columbia to shoot big game. Alan D. and Miss Pilkington have been touring the globe. Other passengers were: Capt. Webster, a Shanghai pilot, and wife, Mrs. W. L. Ballard and child, Capt. E. G. Bellairs, Mr. E. A. Briggs, Mr. J. S. Bruce, Mr. W. G. Filer, Mr. Willett Foster, Mr. E. A. Frost, Dr. Grunwald, Mr. A. G. Hallifax, Mr. T. E. Hardy, F.R.C.S., Lieut. H. H. Holland and Lieut. H. Porter, Mr. Louis H. Porter, Mr. A. Kinsley, Prof. W. J. Simpson, Mr. H. W. Slade, an expert in the use of the Rev. E. E. Ward, Mrs. E. E. Ward, Mr. S. Weiss, Mr. M. Yamamoto, Mr. C. G. Young, Mrs. C. G. Young, Mr. L. D. Hargis, Miss L. M. Hargis, Mrs. H. Harvey, Mr. Heimer, Mrs. Heimer, Rev. G. Hiraiwa, Dr. J. W. Holland, Mrs. H. Hooper, Mr. J. M. Kopner, Rev. M. B. Madden, Mrs. M. B. Madden, Master H. Madden, Master E. Madden, Master Mast, Mrs. S. E. Mast, Mr. K. Marukata, Mr. J. Matsumoto, Miss Merrill, Mr. E. Mildeberger, Lieut. H. W. Miller, Mr. S. Nomura, L. J. W. The Empress had a good cargo of general freight, including good shipments of tea and the usual Chinese

Stomach and Liver Troubles

Indigestion and Severe Headaches Resulting From a Sluggish Liver.

Dr. Chase's
Kidney-Liver Pills

The liver is responsible for more ills and suffering than is generally supposed. Once the workings of the liver are disordered the blood is not properly filtered and foul impurities are lodged in all parts of the system. Much of the success of Dr. Chase's Kidney-Liver Pills is due to the fact that they act directly on the kidneys, liver and bowels, making them active and regular. Mr. B. Knowles, broom maker, 586 Main street, St. John, N. B., writes: "For years I suffered from kidney and liver disorders. I had severe pains in the back and they caught me especially when I stooped over. I was also troubled with indigestion and severe headaches. "I began using Dr. Chase's Kidney-Liver Pills and can speak to the high quality of this medicine, for it has done me a world of good. The back pains and headaches have been entirely cured, and my digestion is good." Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box at all dealers or Edmondson, Bates & Co., Toronto.

would profit by it, because the great bulk of the grain in the world, the visible supply, as you read every morning in every paper current and market report, would be decreased. Every man now knows what the visible supply was a year ago, what it is today, what it was last month, and buys accordingly; and until we can make a market for your stuff somewhere which does not now exist you cannot look for a particular advance in prices, unless it should come from demand somewhere else which would make it scarce."

FROM WEST COAST.

Steamer Queen City Returns After Un-
eventful Passage.

Steamer Queen City, Capt. Townsend, returned from Alouett and will port on the West Coast yesterday afternoon. She brought little news of importance. The freight was small, and her passengers numbered 28 in all. Mrs. McGee, who came from San Juan, having been doing assessment work on some rich iron properties owned by himself and associates on the Jordan river. T. Wilson, superintendent at Vancouver for the P. R. Telegraphs, came from the cable station at Bamfield Creek, and Joshua Holland, contractor for the cable building; H. Gilbert, of Borde, E. Mattison, W. Gilmore, H. Gilmore, J. Gardner and C. M. Glack were passengers from Bamfield Creek. H. E. Newton, the well known mining man, and Mrs. Hobbs, T. M. Baiter, Miss Green, W. Young, Miss Foster, Miss Williams, D. M. Gray, C. E. Ewart, A. Nettleton, W. E. Fisher, J. O. Owens and E. L. Colwell, all of whom are in the employ of the cable line, were also on board. Mrs. E. C. Baker, wife of the lighthouse-keeper, from Cape Beale, and J. Spittal, from Clayoquot. The steamer will sail again for the West Coast on Thursday night.

FROM SAN FRANCISCO.

Second Vessel Sent With Cargo From
Frisco for Fanning Island.

A second vessel is soon to sail from San Francisco with supplies and materials purchased in the United States for the British cable station at Fanning Island. The Mary E. Dodge, now on berth at the Golden Gate, has been chartered by a number of officials of the cable line to carry a full cargo of materials for the construction of the buildings and supplies for the station at Fanning Island. The Mary E. Dodge is the W. McGee, which left for Vancouver for the West Coast on Thursday night.

UNDERWRITERS ANXIOUS

For the Lumber Laden Ship Scottish
Hills.

There is anxiety among the underwriters at Liverpool regarding the safety of the lumber laden ship Scottish Hills, which sailed from Port Gable on May 24, and passed Neah Bay the following day on her way to Melbourne. The vessel is now 74 days out for Melbourne, and unless she is reported within a few days, she will be placed on the lost list. A severe storm occurred shortly after the departure of the lumber vessel, and coasting vessels reported sighting much dressed lumber, which the millmen of the Sound believed to have come from the cargo laden in the Scottish Hills.

SHIPMASTER DEAD.

Capt. Zeal, of the Enulomene, Dead at
San Francisco.

Capt. Zeal, who brought the ship Enulomene to this port after a trying passage last fall, died at San Francisco quarantine station, from beri-beri, contracted on board his vessel on the voyage from Newcastle to San Francisco. Capt. Zeal was well known in this city, where he had many friends. The ship Enulomene, which is at San Francisco, will probably be sold. Capt. Nina, of the ship Blizze, Nielsen, which carries lumber from Vancouver to Shanghai, where she is owned, is down with cholera at Shanghai, according to advices received by the Empress of Japan. He is at the Shanghai general hospital, and the Shanghai Mercury said that when the Empress left his condition was causing his friends much anxiety.

THE GLOBE CIRCULARS.

Schedule Arranged for the China Mutual
Round-the-World Fleet.

The steamer Ping Suoy, of the China Mutual line, is due here about August 25, bringing heavy shipments of rails and general cargo from the United Kingdom and the Orient, and she will sail from this port for Liverpool via the Cape route on or about October 7. The steamer Hyson will leave Liverpool on August 25 for this port and the Sound via Suez and the Orient; the Yangtze

will follow her on September 10, and the Teankai on October 18. The Hyson will sail from here on her return voyage to Liverpool via the Cape route about December 20, the Yangtze about December 31, and Teankai about January 20, 1903.

SHANGHAI WANTS LUMBER.

Large Wharf Enterprise to Be Carried
Out at the Chinese Port.

F. K. Lyons, agent for L. W. Bates, of London, England, who has a contract for extensive harbor improvements to be made at Shanghai by the Chinese government, is touring the Coast, endeavoring to secure manufacturers in regard to a heavy order for shipment to Shanghai. He was at Portland on Monday, and when there said that the Chinese government is about to make extensive improvements in the river near Shanghai, and that the material required will make two heavy cargoes, the order will include piling, sheeting and heavy timbers used for the gear in two dredges about to be built. Several wharves are also in the list of improvements. The main job, however, will be the erection of extensive wharves and docks along the river front, and these are to be sheathed up in a substantial manner. A wing dam is also to be placed in the river.

MARINE NOTES.

The Norwegian steamer Titania, which has been carrying coal between Nanaimo and San Francisco, is badly leaking at Port Los Angeles, whither she took her last cargo, and has been ordered to San Francisco to be hauled out for repairs.

THE STRAND HOTEL. (Vancouver.)

Has been remodelled. All newly furnished, one block from depot. European and American plan. Prices moderate. J. S. Wood, proprietor.

A young woman of 28 upon returning home after a long absence, was greeted by her old maid mother. "Oh, so, Miss Caroline, you ain't married yet?" "No, mammy, and I've about given up all hope of it."

"Well, honey, it's powerful comf'rtful when you cease to struggle, but it will be like 'Hallelujah' to yer mam.'"—Lippincott's.

"The mosquito is a good collector," remarked Belvedere. "What do you mean?" asked Belmont. "When he presents his little bill it is lullabied to the spot."—Pittsburg Chronicle-Telegraph.

NOTICE TO CONTRACTORS.

School, Pender Island.

Sealed tenders, endorsed "Tender for
School, Pender Island," will be received by
the undersigned up to noon of Thurs-
day, the 14th August, 1902, for the erection
and completion of a one-room frame school
house at Pender Island.

Specifications, forms of tender and
contract may be seen on and after the 4th
August, 1902, at the office of A. H. Men-
derson, Secretary of the School Board, Pender
Island, and at the Lands and Works De-
partment, Victoria.

Tenders will not be considered unless
made upon the printed form supplied for
the purpose, and the agreement to execute a
bond appended to the form of tender is
duly signed by the contractor himself and
two other responsible residents of the pro-
vince in the penal sum of \$250 for the faith-
ful performance of the contract.

The lowest or any tender not necessarily
accepted.
